

DOCKET # FAA-1999-5401, NOTICE NO. 99-02

29 July 1999

61333

FAA-99-5401-37

US Department of Transportation Dockets

Docket No. FAA - 1999 - 5401

400 Seventh Street SW

Room Plaza 401

Washington DC 20590

1999 JUL 30 A 10:16
OFFICE OF THE
CHIEF COUNSEL
RULES DOCKET

Ladies and Gentlemen, I may please be allowed an extra two weeks to comment. The proposed rule is so important to Australia that I am undertaking a round-the-world trip to visit airplane manufacturers and regulatory agencies specifically to help me better understand the issues and assess the impact for Australia.

For efficiency, I have delayed this trip to incorporate presenting a technical paper at the International Committee on Aeronautical Fatigue (ICAF) in Seattle, WA.

I do not return to my office in Australia until Monday 9 August. Allowing a week to consult with others in CASA and to write my response, the earliest I could comment would be Monday 16 August.

I would appreciate your consideration of my request

Steve Swift
